MCQs The online version of this article contains multiple choice questions hosted on BMJ Learning.

Contents

Reviews

- 661** A systematic review and meta-analysis of immunohistochemical biomarkers that differentiate chromophobe renal cell carcinoma from renal oncocytoma *K L Ng, C Morais, A Bernard, N Saunders, H Samarasingha, G Gobe, S Wood*
- 672** T-cell abnormalities in common variable immunodeficiency: the hidden defect *G K Wong, A P Huissoon*

Original articles

- 677** Oxyntic gastric atrophy in *Helicobacter pylori* gastritis is distinct from autoimmune gastritis *M Venerito, M Varbanova, F-W Röhl, D Reinhold, K Frauenschläger, D Jechorek, J Weigt, A Link, P Malfertheiner*
- 686** Prognostic significance of histomolecular subgroups of adult anaplastic (WHO Grade III) gliomas: applying the 'integrated' diagnosis approach *K S Rajmohan, H S Sugur, S D Shwetha, A Ramesh, K Thenmarasu, P Pandey, A Arivazhagan, V Santosh*
- 695** Predictive and prognostic values of ERCC1 and XRCC1 in biliary tract cancers *M Mian, M G McNamara, M Doherty, D Hedley, J J Knox, S Serra*
- 702** CD10-positive myoepithelial cells are usually prominent around in situ lobular neoplasia of the breast and much less prominent or absent in DCIS *S Shousha, G Forbes, I Hopkins, J A Wright*
- 706** Peritoneal malignant mesothelioma (PMM), and primary peritoneal serous carcinoma (PPSC) and reactive mesothelial hyperplasia (RMH) of the peritoneum. Immunohistochemical and fluorescence in situ hybridisation (FISH) analyses *T Kawai, S Tominaga, S Hiroi, S Ogata, K Nakanishi, K Kawahara, H Sonobe, K Hiroshima*

August 2016 Volume 69 Issue 8

- 713** Thrombocytosis and STAT5 activation in chronic myelogenous leukaemia are not associated with JAK2 V617F or calreticulin mutations *S K Turakhia, G Murugesan, C V Cotta, K S Theil*
- 720** The HemoScreen, a novel haematology analyser for the point of care *Y Ben-Yosef, B Marom, G Hirshberg, C D'Souza, A Larsson, A Bransky*
- 726** Pulmonary toxoplasmosis in immunocompromised patients with interstitial pneumonia: a single-centre prospective study assessing PCR-based diagnosis *G Desoubreux, É Cabanne, C Franck-Martel, M Gombert, E Gyan, S Lissandre, M Renaud, H Monjanel, C Dartigeas, É Bailly, N Van Langendonck, J Chandenier*
- 731** Mannose-binding lectin deficiency and predisposition to recurrent infection in adults *J Holdaway, S Deacock, P Williams, Y Karim*

Short report

- 737** High frequency of JAK2 exon 12 mutations in Korean patients with polycythaemia vera: novel mutations and clinical significance *C-H Park, K-O Lee, J-H Jang, C W Jung, J-W Kim, S-H Kim, H-J Kim*

PostScript

- 742, 745** Correspondence
