

Cover legend: © Danielle Rinck 2023. Quantitative analysis of p53 immunohistochemistry is a valuable tool in predicting dysplasia associated with Barrett's oesophagus (see Neyaz *et al.* in this issue of the Journal of Clinical Pathology). Acknowledgements to Dr Danielle Rinck, MD, for the original artwork accompanying this study.

Contents

Gene of the month

- 573** Unravelling the USP6 gene: an update
F Cordier, D Creytens

Grand rounds

- 578** Failure to thrive in a man in his late forties
B J Meyer, L-A Dale, S Z Kuo, S B Brandes, S M Lagana, K M O'Toole, J E Burt, S Krishnareddy

Grand rounds commentary

- 581** Ketamine: friend or foe?
N Steyn

Original research

- 582** Quantitative p53 immunostaining aids in the detection of prevalent dysplasia
A Neyaz, S Rickelt, O H Yilmaz, P H Parrack, C Lu, O Yilmaz, E Y Wu, W-T Choi, M Gala, D T Ting, R D Odze, D T Patil, V Deshpande
- 591** Development of a LAG-3 immunohistochemistry assay for melanoma
L Johnson, B McCune, D Locke, C Hedvat, J B Wojcik, C Schroyer, J Yan, K Johnson, A Sanders-Clette, S Samala, L M Dillon, S Anderson, J Shuster
- 599** MYCN amplification and International Neuroblastoma Risk Group stratification on fine-needle aspiration biopsy and their correlation to survival in neuroblastoma
N Bhardwaj, M Rohilla, A Trehan, D Bansal, N Kakkar, R Srinivasan
- 606** Postmortem survey of haemoglobin A1c, non-alcoholic steatohepatitis and liver fibrosis within a general population
K-A Klaric, J L Parai, C A Kepron, A E Walker, C M Milroy
- 612** Improving care of melanoma patients through efficient, integrated cellular-molecular pathology workflows using tissue samples with low tumour nuclear content
A Finall, K Murphy, R D Frazer

September 2023 Volume 76 Issue 9

- 618** Implementation of the updated NICE haematological cancers (NG47) improving outcomes guidelines across Specialist Integrated Haematological Malignancy Diagnostic Services (SIHMDS) in England: a UK NEQAS LI survey
A Cartwright, J A Snowden, H Whitehouse, S Scott, L Whitby
- 624** Beyond the routine CBC: machine learning and statistical analyses identify research CBC parameter associations with myelodysplastic syndromes and specific underlying pathogenic variants
O Pozdnyakova, R S Niculescu, T Kroll, L Golemmé, N Raymond, D Briggs, A Kim
- 632** One-step genotyping of α -thalassaemia by multiplex symmetric PCR melting curve
J Qin, J He, Y Li, N Liu, F Tao, P Zhang, W Guo, Q Qin, W Zhou
- Short reports**
- 637** Prevalence of elevated serum concentrations of biotin in patients from South East England, Korea, Singapore and Thailand and risk of immunoassay interference
S Brady, K Bates, S Oddy, Y L Jeon, T Pichayayothin, R Tetteh, K Voong, D J Harrington
- 642** Preparing for the next pandemic: lessons learnt from the implementation of point-of-care SARS-CoV-2 testing in an emergency department
J A Donnelly, M Russell, G O'Brien, I O'Neill, F Fitzpatrick, K O'Connell

PostScript

- 647** Assessing transfer of value from industry to physicians: the importance of studying and reporting the appropriate population
J W Jacobs, B D Adkins, G S Booth
